

SIMPLI  
GRC

# OUR COMPANY

SimpliGRC, offers a pragmatic approach to enhance your cyber protection. Deep knowledge of regulatory standards and frameworks allows for recommendation, implementation, and management of diverse GRC solutions. Whether you're starting your GRC program or need to comply with cybersecurity standards, SimpliGRC can help safeguard your assets.

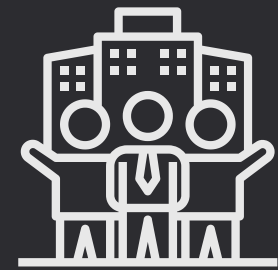

**IF YOU CAN'T EXPLAIN IT SIMPLY, YOU DON'T UNDERSTAND IT WELL ENOUGH**

-Albert Einstein

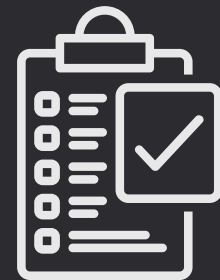

# CHALLENGES

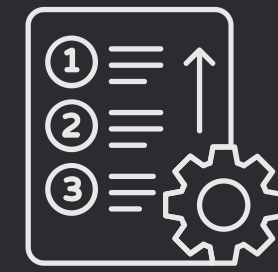

The organization's culture is resistant to change.

We don't know what frameworks, standards or controls will effectively meet our governance, risk, and compliance needs.

Our policies and procedures don't provide us with needed governance and guidance.

Too many competing priorities: where do we begin?

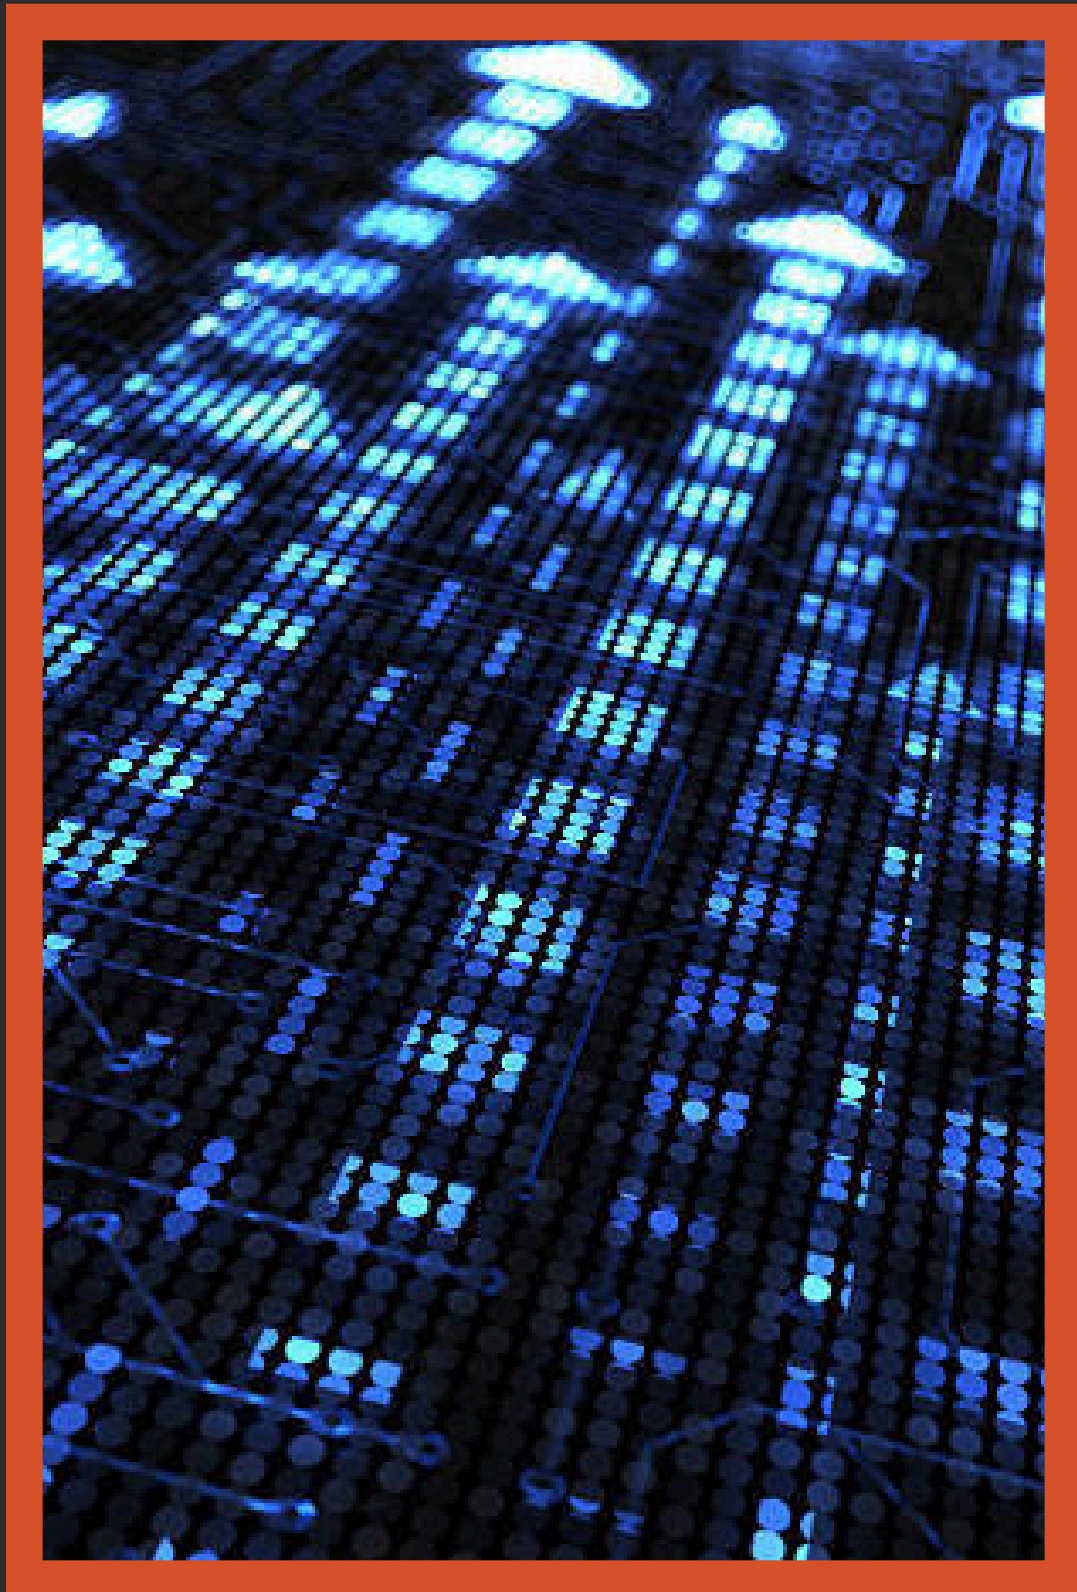

Our risks are poorly understood or poorly defined, which affects priorities.

Technology was implemented to resolve our compliance requirements but has only complicated our objectives.

# SERVICES

Audit & Assessments
